**123**  
Charcoal

As the celestial spheres harmonize in a breathtaking alignment, the eclipse casts a mesmerizing aura of mystery and wonder upon the world.

---

**K24**

Dalia

Like a flawless anti-fingerprint shield, the moon gracefully glides across the sun, creating a seamless veil of darkness that evokes a sense of enigmatic allure.

---

**K64**

Ombre

**K75**  
Karma

With the sun's brilliance momentarily veiled, the earth hushes into an ethereal stillness, akin to the tranquil surface of a scratch-resistant masterpiece.

---

**K82**

White Smoke

**K84**  
Quietude

**K86**  
Serenity

Nature's grand spectacle unfolds, leaving a sense of unblemished beauty.

---

**K89**

Cosmos

**L03**  
Bonaventure

The atmosphere hums with anticipation, setting the stage for this celestial spectacle.

---

**L05**

Natura

Amidst the alignment's grandeur, a cosmic ballet unravels, guarding the delicate dance of sun, moon, and Earth from the ravages of time.

---

## UNVEILING THE SCIENTIFIC SECRETS BEHIND OUR ECLIPSE™ TECHNOLOGY

Our revolutionary thermal-lacquered technology stands as a beacon of innovation, offering a host of advantages that elevate it above conventional alternatives.

Our technology boasts exceptional durability and resilience, resistant to scratches, tears, or bubbling. Furthermore, its seamless and even application, forming a cohesive and flawless protective layer, does not flake or wear off.

---

Eclipse™'s thermal-lacquered TFL panel exudes a captivating low-light reflection, ensuring our product remains visually matte at every angle, surpassing the finish of traditional options. Notably, our technology also exhibits remarkable resistance to smudges and fingerprints, ensuring a spotless and immaculate appearance over prolonged periods and unparalleled ease of maintenance.

With environmental consciousness at the core of our innovation, our thermal-lacquered solution is also environmentally friendly, free from harmful chemicals.

In a realm where perfection meets sustainability, our revolutionary thermal-lacquered technology reigns supreme, redefining the standards of excellence in surface protection and aesthetic appeal. Discover the epitome of resilience, surpassing industry standards and setting a new benchmark for excellence.

FIND YOUR PERFECT MATCH

With  Teknaform™'s Quality Edgebanding

---

Uniboard is proud to collaborate with Teknaform™, a leading edgebanding supplier renowned for its commitment to quality and innovation. As part of this association, we are thrilled to offer you the opportunity to elevate your design projects with perfectly matched colours from our new Eclipse™ collection.

With Teknaform™'s cutting-edge technology and expertise in the edgebanding industry, they are able to precisely match their edgebanding solutions to the exact colors of our Eclipse™ collection. This level of customization ensures that every project you undertake will achieve seamless integration and a stunningly coordinated finish.
