

Maintain High Gloss Excellence

Easy to use. Simply spray on surface then immediately wipe with clean microfiber cloth.

VuPlex® is a polish specifically designed to clean, protect and maintain modern high gloss polymer and glass finishes. VuPlex® is compatible with EGR Decor's StyleLite TruGloss and PETLite high gloss surfaces and delivers the following benefits:

- ▶ Applying VuPlex® immediately after removal of the peel coat significantly increases the durability of StyleLite TruGloss by hardening the surface facilitating vastly improved scratch, mar and abrasion resistance.
- ▶ VuPlex® deposits a smooth, fine and wax-like film on the StyleLite TruGloss surface which reduces friction thereby enhancing scratch, mar, abrasion and stain resistance.
- ▶ VuPlex® is an anti-static thereby minimizing dust buildup on the panel surface helping to keep the StyleLite TruGloss finish looking brilliant.
- ▶ VuPlex® can fill micro scratches in the TruGloss surface promoting improved luster on older StyleLite panels.
- ▶ Water and contaminants are repelled from the StyleLite panel surface.
- ▶ Available in 13 oz or 7 oz

Cleans & Protects Matte Polymer Surfaces

Easy to use. Simply spray on surface then immediately wipe with clean microfiber cloth.

Matte Maxx is a premium surface cleaner and polisher primarily designed for use on matte polymer surfaces. It is ideal for use with StyleLite TruMatte and Velvet Matte as well as PETLite Supermatte finishes including edges. Matte Maxx offers multiple benefits including:

- Increases the scratch resistance of matte polymer surfaces especially immediately after peel coat removal
- Increases stain resistance of matte polymer surfaces
- Effectively cleans matte surfaces
- Reduces static build up, helping to keep matte surfaces free of dust
- Available in 7.7 oz
